About Us

Sphere Sport is a sports apparel manufacturer based in Dongguan, China. Our founders, Sam Clay and Eric Fan, bring a unique blend of Australian and Chinese culture to our business, creating a dynamic and innovative approach to sports apparel production.

We specialize in sublimation printing, a process that allows us to print vibrant and long-lasting designs on our high-quality fabrics. Our dedication to using only the best materials and equipment ensures that our products are not only stylish but also durable and comfortable.

We believe that customer satisfaction is of utmost importance, and that's why we place a high emphasis on customer service. Our team is committed to working closely with our clients to understand their specific needs and create customized solutions that meet their unique requirements.

LACROSSE > MEN'S STICK

Men's stick with soft mesh pocket, 7075 alloy shaft and new 2-pc butt end.

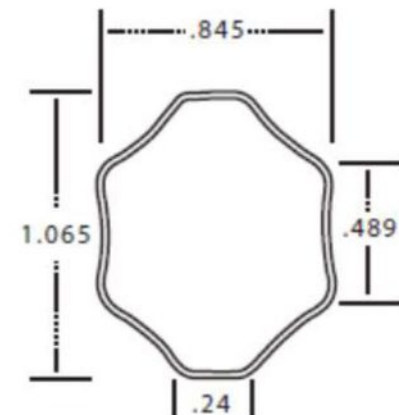

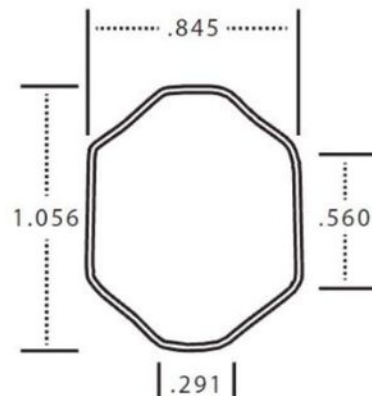

MEN'S ALLOY SHAFT

HANDLE SHAPE

Different men's alloy handle shape available for choice.

Alloy options: 6061, 7075

Dimensions: 30", 32", 40", 54", 60".

LIGHTWEIGHT AND DURABILITY

Highly durable shaft made with improved alloy to withstand checks. Great balance between lightweight and durability, perfect for players of all ages. Weight distributed across shaft to improve durability and for a consistent feel and release.

MEN'S COMPOSITE SHAFT

ATTACK/MIDFIELD SHAFT

This composite prototype lacrosse shaft is light, stiff, and strong, use only the highest quality carbon fiber, letting them be hollow without sacrificing strength.

Dimensions: 30", 32", 60"

STRONG, LIGHT AND DURABLE

The lightweight and durability of carbon shafts are unrivaled as they are dent, warp, and scratch-resistant. With the added benefits of being more consistent, more accurate, carbon fiber is no longer the choice of the future, it is the choice for today!

LACROSSE > GIRLS' STICK

Women's stick available in VX pocket and soft mesh pocket.

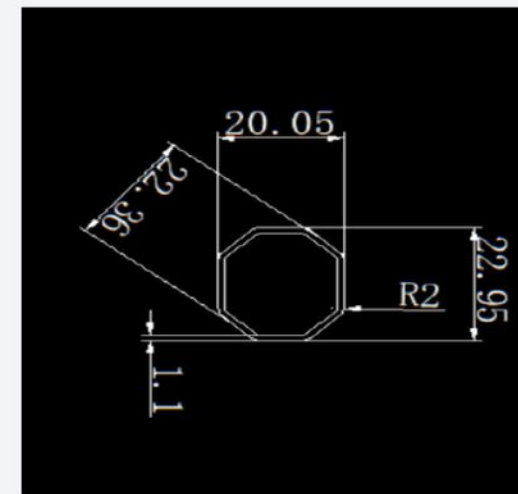

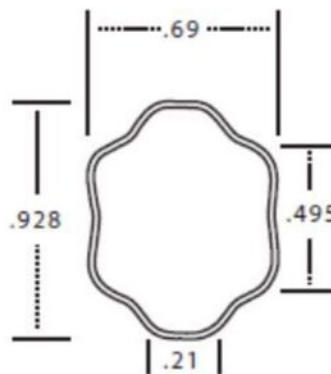

GIRLS' ALLOY SHAFT

HANDLE SHAPE

Available in small diameter and traditional octagonal shape.

Alloy options: 6061, 7075

Dimensions: 32"

LIGHTWEIGHT AND DURABILITY

Highly durable shaft made with improved alloy to withstand checks. Great balance between lightweight and durability, perfect for players of all ages. Weight distributed across shaft to improve durability and for a consistent feel and release.

GIRLS' COMPOSITE SHAFT

CARBON SHAFT

This composite prototype lacrosse shaft is light, stiff, and strong, use only the highest quality carbon fiber, letting them be hollow without sacrificing strength. Dimensions: 32"

LIGHT, STRONG AND DURABLE

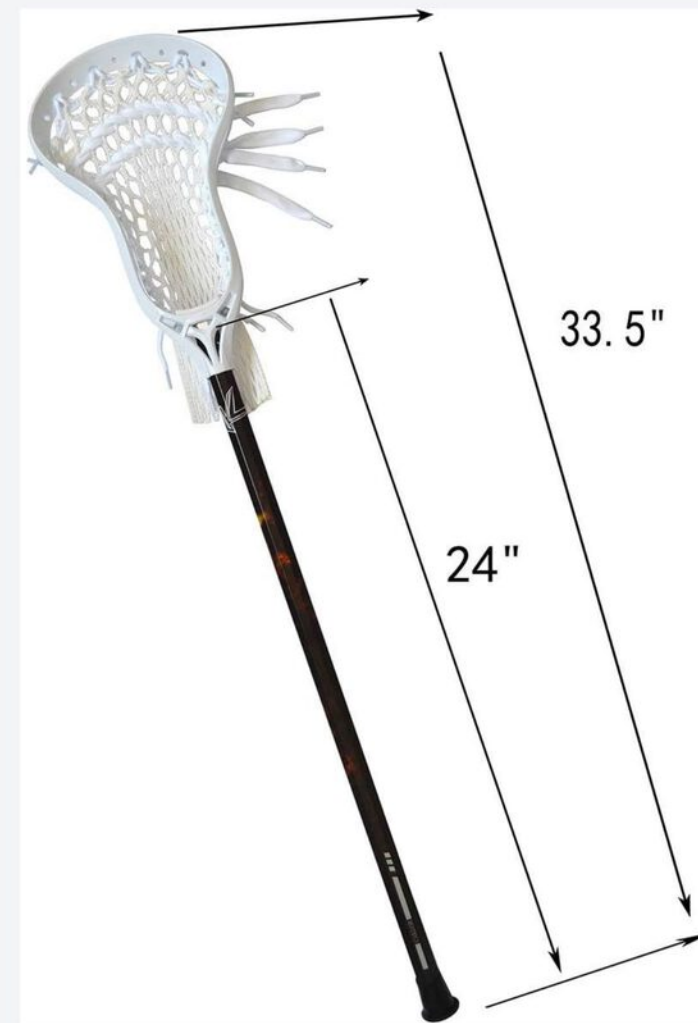

The lightweight and durability of carbon shafts are unrivaled as they are dent, warp, and scratch-resistant. With the added benefits of being more consistent, more accurate, carbon fiber is no longer the choice of the future, it is the choice for today!

LACROSSE > YOUTH STICK

YOUTH STICK

Made from strong, light and durable material and the mesh is made from a premium quality material. The Pioneer head has been professionally strung for the perfect catch and throw. The pockets are easily adjustable in case you want to deepen it for an easier catch.

BALLS

RUBBER BALLS

Meets NCAA specs

Diameter: 62mm

Weight: 147g

NCAA SPECS: The ball shall be white, yellow or orange solid rubber between 7 3/4 and 8 inches in circumference, between 5 and 5 1/4 ounces in weight and when dropped from a height of 72 inches upon concrete floor, shall bounce 43 to 51 inches at a temperature of 65 degrees Fahrenheit.
